EDUCATION

Software Engineering Student
at Adama Science and Technology
University (ASTU) | Expected
Graduation: 2027

SKILLS

Backend Development:
Django
Frontend Development: React,
JavaScript, HTML, CSS
Database Management: SQL,
PostgreSQL, MySQL
DevOps & Cloud Computing:
Docker, CI/CD, Cloud
Deployments
RESTful API Development &
Integration
Version Control: Git, GitHub
Problem-Solving & Algorithm
Optimization

LANGUAGES

English (Fluent)
Amharic (Fluent)
Afan Oromo (Native)

PROFILE

Junior Full-Stack Developer | Backend & Cloud Computing Enthusiast
Passionate software engineer with expertise in Django, React, JavaScript, and cloud-based solutions. Strong foundation in backend development and system architecture, focusing on building scalable and high-performance applications. Currently deepening knowledge in Full-Stack development from coursera .

PROJECTS

- **Ergoo Chatbot (Django, HTML, CSS, JavaScript)**
 - Built a chatbot-integrated website for an automobile client.
 - Integrated Google OAuth2 authentication using Django-Allauth.
 - Optimized frontend templates for a smooth user experience.
 - Implemented secure backend functionalities in Django.
- **Online Course App (Django, JavaScript, HTML, CSS)**
Full-Stack Developer
 - Developed a web application to manage and track online courses.
 - Backend: Utilized Django to handle user registration, course creation, and management.
 - Frontend: Built dynamic, responsive pages with HTML, CSS, and JavaScript.
 - Features:
 - User authentication and profile management.
 - Course enrollment and progress tracking. 2024 - 2025
 - Interactive course content pages with video embedding and quizzes.
 - Admin interface for managing courses, users, and course content.
- **Personal Portfolio (HTML, CSS, JavaScript, Vercel) and**
